

Areaflood Pro 2

Application versatile floodlight luminaire with best in class optical performance and connectivity solutions

- Full package product family of five luminaire sizes offering between 4,000 - 100,000 lumen outputs
- Integrating THORN's in-house designed and developed optic portfolio. Offering a total of 21 different light distributions covering area, road and sports applications
- Protecting Dark Skies and the nighttime environment, Areaflood Pro is available with THORN's Balanced White technology
- Designed with Dark Sky principals to limit light pollution, with 0 cd at 90° when mounted horizontally. Coupled with an accessory portfolio to further control light spill and light trespass
- Areaflood Pro steuert den Energieverbrauch und verbessert so die Nachhaltigkeit. Sie ist zudem kompatibel mit den UrbaSens Konnektivitätslösungen von THORN für Außenbeleuchtung
- Maintenance free solution. Product lifetime up to 100,000HR L95

Las fotos, dibujos y datos técnicos de iluminación son únicamente imágenes simbólicas. Para obtener datos detallados de un producto, por favor, pulse sobre el producto deseado.

Material/ tipo

Luminaire body manufactured in die-cast aluminium EN AC-44300

Robust solution with excellent corrosion resistance of C5 according to ISO 9223:2012

Finished in light grey (close to RAL9006) with an additional 50 RAL finishes available on request

Toughened Glass

High mechanical resistance of IK08 and IP66

Instalación/ montaje

Versatile adjustable surface mounting bracket to suit application demands

Optional spigot adapter accessory for post top mounting applications

Optional special surface treatment for installation in swimming pool applications

Areaflood Pro 2
